SCHWEISSEN & SCHNEIDEN 2017

WELCOME TO THE NO. 1 SHOW – ONE TIME AS GUEST IN DÜSSELDORF

Experience the future of welding technology at SCHWEISSEN & SCHNEIDEN 2017, the sector's leading trade show. Numerous national and international exhibitors will be showing **current developments and innovations** along the **entire value chain** at the most important hot spot for joining, cutting and surfacing technology from the 25th to 29th of September 2017. Trade visitors from home and abroad are therefore offered a **complete range** of machines, products, processes and services. Due to extensive works taking place to modernise the organiser's exhibition site at MESSE ESSEN, SCHWEISSEN & SCHNEIDEN 2017 will be held at **Düsseldorf's exhibition centre** for **one time only**.

LOOKING BACK ON A SUCCESSFUL YEAR 2013

- **1,011 Exhibitors** from 40 countries presented their latest joining, cutting and surfacing technologies
- **54,497 Visitors** from 130 countries came to Essen
- **48.0%** of the visitors came from abroad
- **81.2%** of the visitors are involved in decision-making processes in their companies
- **29.4%** of the visitors placed orders at the fair for machines, tools and fillers
- **92.8%** of the visitors have already announced that they will visit SCHWEISSEN & SCHNEIDEN again in 2017
- **1.5 Billion Euro** – the volume of investments made at the trade fair

HALL 15

YOUNG INNOVATIVE COMPANIES

You will experience new and **forward-thinking ideas** in joining, cutting and surfacing technology at the “Young Innovative Companies” stands. At these stands, smaller firms that have been in the market for **less than ten years** have the opportunity to present themselves and their ideas at SCHWEISSEN & SCHNEIDEN. Participation of these companies at leading international trade fairs in Germany is supported by a **funding programme** run by the German Federal Ministry of Economic Affairs and Energy. We invite you to discover the **performance** and **growth potential** of the “Young Innovative Companies” in Hall 15B12.

WORLDWIDE KNOWLEDGE AND EXPERTISE

The interest in SCHWEISSEN & SCHNEIDEN from outside Europe also continues to be high. Many international exhibitors will present their range on our international pavilions spread over all halls. You will also find the DVS and thermal spraying pavilions in Hall 15.

KEY TOPICS

At our visitors' request, the positioning of exhibitors in the halls has been reorganised. Visit current developments and innovations within the entire value chain **more effectively** and **more concisely**. Let our colour code system guide you.

The **complete nomenclature** is still available for analysis on the web or in our catalogue. As usual, you can also find a detailed exhibitor list here.

DVS PROVIDES INFORMATION

HALL 15

Our cooperation partner, DVS – the German association for welding and associated processes – is present at the DVS pavillion in Hall 15. Together with their affiliated companies and further partners, they will present their activities and services and will provide you with extensive information.

THE DVS CONGRESS

The DVS CONGRESS will take place from the 26th to 29th of September in the Congress Center Düsseldorf. It will include a large welding conference and DVS student congress as part of the world's leading trade fair SCHWEISSEN & SCHNEIDEN 2017. The DVS CONGRESS is synonymous with high-calibre presentations with first-hand welding information. The combination with SCHWEISSEN & SCHNEIDEN offers an excellent environment. First listen and then take a look! The DVS CONGRESS offers you a comprehensive programme of lectures on the entire range of services in current joining technology and its trend-setting developments.

HALL 13

DVS ROBOT WELDING COMPETITION

The second DVS robot welding competition in Hall 13 is mainly about excellent welding knowledge and sophisticated programming. Following the considerable success of the first competition in 2015 in Nuremberg, you will experience live automated welding. The participants will present their expertise in programming, teaching and welding at seven different combinations of robots and welding power sources over four days. Be part of the inspection of the welded components directly on site.

HALL 14

YOUNG WELDERS' COMPETITIONS

Three different competitions will take place for the best up-and-coming welders from home and abroad at SCHWEISSEN & SCHNEIDEN 2017. Germany's 12th DVS competition "Jugend schweißt" [Young welders] forms the opening act, in which the search is for Germany's most talented up-and-coming welders. This will be followed by the European WELDCUP and the international competition.

All competition tasks are based on the requirements for the European and internationally recognised welder's examination in accordance with DIN EN ISO 9606-1.

Join the excitement when the most talented up-and-coming young welders from across Germany and abroad compete with one another under the eyes of an expert public. You can look forward to plenty of fun, international contacts and feeling the thrill of the three competitions.

SCHWEISSEN & SCHNEIDEN BACK IN ESSEN

Following our guest appearance in Düsseldorf in 2017 we will be welcoming you again to the SCHWEISSEN & SCHNEIDEN fair in the specially remodelled and modernised halls of MESSE ESSEN.

Upon completion of the remodelling, Essen will offer one of the most technically state-of-the-art exhibition centres in Germany with clear, functional architecture and a uniform appearance characterised by openness and light.

Therefore, not only our impressive glass foyer with a floor area of around 2,000 m² and direct U-Bahn (underground railway system) connection awaits you in the east entrance area, but also a refurbished guest lounge with a VIP area and an equally innovative conference centre. In addition to the removal of the upper storeys, all halls have also been fitted with the latest air conditioning, sanitation and lighting systems, to make your visit to the trade fair as pleasant as possible.

TRAFFIC LINKS

Flight Düsseldorf Airport is situated three kilometres from the exhibition centre and can be reached in a matter of minutes with the 896 bus route or by taxi. You can find further information at www.duesseldorf-international.de

Car The exhibition centre can be reached via the A44 motorway. The signs to the exhibition centre direct you to the large car parks P1 and P2. Complimentary shuttle buses (shuttle bus 897) travel from there to the exhibition centre entrances.

Rail The main railway station at Konrad-Adenauer-Platz is situated in a central inner-city location. From there the underground lines U78 and U79 travel to the exhibition centre.
